### Descripción del producto

It is widely accepted that learning chess has a very positive effect on children. Many parents want to help their children to study chess, but don't know how to do it. This book is the solution. It is a practical handbook that teaches the mysteries of chess with a light touch.

All rules and aspects of the game are covered. This book will help children progress from absolute beginners to playing in tournaments.

**Heinz Brunthaler** has his background in business. For the last twenty years he has been involved in many aspects of chess, including organising more than a hundred international tournaments. Now he focuses on writing chess books, especially those designed to help novices.

ISBN: 91-976004-5-8 - 224 pages - Published 29 May 2006
