Descripción del producto

Chess is Child's Play is a book written by parents, for parents. It is written for YOU!

Chess is one of the oldest strategy games known to man. Studies show that children who learn chess at an early age gain such valuable life skills as:

Problem-solving ability
Enhanced imagination
Improved patience and focus
Greater self-confidence.

Chess educators Laura Sherman and Bill Kilpatrick have created an easy, step-by-step method for teaching chess that parents of all skill levels can use to teach children of any age. You don't have to know how to play in order to use the system. This book will teach you the game, while showing you how to teach your child to play. You will learn together. Chess makes children smarter. Give your child an advantage in life and teach him or her to play today!
